## PROFESSIONAL SUMMARY

Profile  
Aspiring .NET Back-End Developer with a strong foundation in computer science principles, including object-oriented programming, data structures, and algorithms. Specialized in developing scalable web applications using ASP.NET Core, C#, Entity Framework, and SQL Server. Proficient in building RESTful APIs and applying clean architecture and design patterns. Actively involved in competitive programming through platforms like Codeforces and LeetCode. Currently participating in an intensive Full Stack .NET training program through the Digital Egypt Builders Initiative, focusing on modern server-side technologies and robust database design.
