Summary

Creative and detail-oriented Graphic Designer with a strong passion for visual storytelling and brand development. Experienced in designing engaging content for digital and print platforms. Skilled in using industry-standard design tools to create impactful and high-quality visuals. Seeking to contribute innovative design solutions that enhance brand identity and audience engagement.

J

Education

B.Sc. in Computer Science Faculty of Electronic Engineering
Menoufia University

2021 – 2025

Skills

Back-End Development

ASP.NET ☑ Core, Entity Framework Core, RESTful APIs, MVC, C#, Relational Database Design.

Front-End Development

HTML, CSS, JavaScript, Bootstrap

Software Engineering

SOLID Principles, Design Patterns, Clean Code

Programming Languages

C#, C++, C, Python, JavaScript, SQL

Version Control

Git, GitHub

Projects

LearnHub ☑, *Online Learning Courses Platform*

09/2025 – 11/2025

LearnHub is an online learning platform built with ASP.NET ☑ Core MVC that connects instructors and students.

Instructors can apply to join, create courses, and submit them for admin approval.

Admins review, approve, or reject courses before publishing.

Students can browse and purchase courses securely via Stripe and access them in their dashboard.

The platform follows clean architecture and supports full role-based access control.

Tech Stack: ASP.NET ☑ Core MVC, Entity Framework Core, Identity, Roles, Stripe

Payment Integration.

FlyEasy ☑, *Flight Booking Ecommerce System*

07/2025 – 08/2025

Live demo: <http://flyeasy.runasp.net/> ☑

Developed a flight booking system with role-based access (Admin/User). Admins manage flights, airplanes, and bookings, while users can reserve flights and view booking details. Optimized performance with pagination and indexed search, designing and implementing a scalable Back-End architecture following best practices.

Tech Stack: ASP.NET  Core MVC, ASP.NET  Identity, C#, Entity Framework Core, SQL Server, Stripe API, Specific Repository Pattern, Unit of Work.

JobHunter , *Job Portal Platform*

06/2025 – 07/2025

Designed a job portal with dual roles: employers can post jobs and receive applicants' CVs, while job seekers can upload their CVs and apply for jobs. Ensured a clean and efficient Back-End architecture with full CRUD functionality, advanced search, and role-based access control.

Tech Stack: ASP.NET  Core MVC, ASP.NET  Identity, C#, Entity Framework Core, Bootstrap, SQL Server, Role-Based Access Control.

Internship and Training

Full Stack .NET Developer – Digital Egypt Pioneers Initiative (DEPI)

06/2025 – Present

Participated in a training program focused on back-end and front-end development, built scalable web applications and integrated database optimization techniques.

Tech Stack: ASP.NET  Core MVC, Web API, Entity Framework Core, C#, SQL Server, HTML5, CSS3, JavaScript, Git/GitHub, Unit Testing, Docker.

Full Stack .NET Developer (Summer Intern) Information Technology Institute (ITI)

07/2024 – 08/2024

Completed a 1-month training program focused on C#, ASP.NET  MVC, Entity Framework Core, and SQL Server, gaining practical experience in web application development.
